

Barbados-made complete electrical distribution box manufacturer

Article Overview

Williams Electrical is one of the largest and most established electrical distribution box manufacturers in Barbados.

Williams Electrical, part of Williams Industries Inc., has been operating since 1972 and specializes in the design, installation, and supply of electrical systems, including distribution boxes, for a wide range of applications such as power stations, hotels, office buildings, factories, and marinas in Barbados and the Caribbean . The company employs over 60 electrical engineers, technicians, and electricians, many of whom are shareholders, reflecting its significant scale and local presence .

Key Highlights

- o Experience: Over 50 years in electrical system design and installation, with a strong focus on distribution and electrical enclosures .
- o Capabilities: Provides custom electrical solutions, including distribution boxes, electrical cabinets, and integrated systems for commercial, industrial, and residential projects .
- o Reputation: Known for completing projects reliably without disputes or arbitration, indicating strong operational and service standards .
- o Regional Reach: Projects extend beyond Barbados to other Caribbean islands, demonstrating capacity for large-scale manufacturing and installation .

Additional Context

While other companies in Barbados manufacture electrical enclosures and boxes, such as local sheet metal and custom enclosure providers, Williams Electrical stands out due to its long history, large workforce, and extensive project portfolio, making it the most prominent manufacturer in the country for electrical distribution boxes. For inquiries or further details, Williams Electrical can be contacted directly at their Barbados office via telephone at (246) 425-6000 .

Electricity in Barbados is 110 volts/50 cycles. Plug types are (1) two flat blades and (2) two flat blades with one round grounding pin.
