OTC was established in 1989 and is the UK specialist for fibre optic, light (lux, UV and luminance meters) and electronic calibration holding UKAS accreditation for all three disciplines. We provide a comprehensive range of products, including optical spectrum analyzers, lasers, and optical power meters, serving both research laboratories and production. Specialists in Calibration, Service, Repair and Sales of Fibre Optic, Electrical, Electronic and Photometric Test and Measurement Equipment. Whether you are testing singlemode or multimode we have the equipment for your application. With Promo bundles include software, probes, and upgrades at no extra cost. Turn test energy into savings with regenerative loads.

Our knowledgeable scientists and engineers, and factory specialized for low-volume high-tech equipment,

Optical test equipment or optical measuring instruments are used to measure and characterize the physical properties of light. Learn
