

Canadian Trapezoidal Cable Tray Price Inquiry

Article Overview

Trapezoidal cable trays in Canada typically cost between CAD \$5 and \$50 per meter, depending on material, size, and specifications.

Cost Breakdown by Material

- o Steel Trapezoidal Trays: Generally the most cost-effective, ranging from CAD \$5 to \$25 per meter. Steel offers strength and durability for indoor and general-purpose installations .
- o Aluminum Trapezoidal Trays: Lightweight and corrosion-resistant, ideal for humid or industrial environments, costing approximately CAD \$6 to \$30 per meter .
- o Fiberglass (FRP) Trapezoidal Trays: Suitable for aggressive or corrosive environments, with prices ranging from CAD \$10 to \$50 per meter .

Additional Cost Factors

- o Tray Size and Design: Larger widths or deeper trays increase material usage and cost.
- o Installation Accessories: Supports, brackets, connectors, and bends can add to the total expense.
- o Surface Finish: Galvanized, powder-coated, or stainless steel finishes affect durability and price .
- o Supplier and Location: Canadian suppliers like ABB's T&B Cable Tray facilities in Quebec and Alberta can provide standard and custom trays, with turnaround times of 3-5 days for select products .

Practical Considerations

- o Bulk orders may reduce per-meter costs.
- o Custom trapezoidal trays with special dimensions, pre-drilled holes, or color finishes may increase the price.
- o Labor and shipping costs should be considered for total project budgeting. In summary, for a standard trapezoidal cable tray in Canada, expect to pay CAD \$5-50 per meter, with the final cost influenced by material, size, finish, and installation requirements .
