CableLabs' newly released CPON Modular Interface specification defines a standardized, interoperable interface between CPON hosts and modules, extending our work to support next-generation PON deployments. Hybrid composite fiber optic cables have both fiber and copper conductors under the same cable jacket to deliver data and power to the very edge of your enterprise network. Questions for us? Complete the form below. ActiFi hybrid cable is also compatible with Corning's structured cabling, hardware. OFS offers a custom service to design and manufacture hybrid cables helping customers to simplify deployment into many applications and thereby reducing material and installation costs and the need to maintain inventory of two different cable types. OCI aims to use a dense wavelength-division multiplexing (DWDM) wavelength grid with cascaded micro-ring resonators (MRR) to enable a low-power high-density. Fiber Optic Cable, Outdoor Micro Cable for Air-blown installation, Central Tube All-Dielectric Fiber Optic Cable, Outdoor Micro Cable for Air-blown installation, Stranded Loose Tube All-Dielectric Fiber Optic Cable, Indoor/outdoor Low Smoke Zero Halogen, Central Tube Armored Fiber Optic Cable. CommScopes high-performance cables ensure minimal signal loss and maximum bandwidth. Explore our extensive, versatile portfolio today.
