

Distribution box within 50 miles

Article Overview

You can locate USPS collection boxes, post offices, and other mail drop-off points within a 50-mile radius using USPS tools and ZIP code radius mapping services.

USPS Collection Points and Distribution Boxes

USPS offers several types of mail drop-off locations:

- o Collection Boxes: Freestanding blue boxes for letters and small packages, with posted pickup times .
- o Post Offices: Full-service locations with retail counters, self-service kiosks, and PO Box access .
- o Self-Service Kiosks: Found in post office lobbies or large shopping centers for weighing, postage, and label printing .
- o Contract Postal Units (CPUs) and Village Post Offices (VPOs): Located within businesses or community centers, offering limited postal services .
- o gopost(R) Units: Automated, secure parcel lockers for convenient drop-off and pickup .

How to Find Locations Within 50 Miles

- o USPS Location Finder: Enter your ZIP code or address on the USPS website to search for nearby post offices, collection boxes, and kiosks. You can adjust the search radius to cover up to 50 miles .
- o ZIP Code Radius Tools: Websites like MapScaping.com or UnitedStatesZipCodes.org allow you to find all ZIP codes within a specified radius from your location. These tools calculate distances using the Haversine formula for accuracy .
- o Map Radius Calculators: Tools like CalcMaps let you draw a circle around your location to visualize all points within a 50-mile radius, which can help plan mail drop-offs or delivery zones .

USPS Regional Facilities

For larger mail processing, USPS operates regional facilities (also called regional distribution centers) that handle sorting and redistribution of mail. While these are not typically public drop-off points, understanding their locations can help you estimate delivery times and service standards for mail sent within 50 miles of a regional hub .

Tips for Efficient Mail Drop-Off

- o Check pickup times posted on collection boxes to ensure same-day processing .
- o Use self-service kiosks for faster processing of packages and postage.
- o For bulk or presort mail, consider locations within 50 miles of a USPS Regional Processing and Distribution Center (RPDC) to maintain standard delivery times .

Distribution box within 50 miles

o Always verify the type of facility (full-service post office vs. collection box) to ensure it accepts the type of mail or package you are sending. By combining USPS location tools with ZIP code radius mapping, you can efficiently identify all distribution boxes and mail drop-off points within a 50-mile radius of your location.
