

Article Overview

Riveted ladder-type cable trays in Eastern Europe typically range from EUR20 to EUR80 per meter, depending on material, size, and supplier.

Pricing Overview

The cost of riveted ladder-type cable trays varies based on several factors:

- o **Material:** Hot-dip galvanized steel, stainless steel, or aluminum affect price, with stainless steel being the most expensive and aluminum lighter but moderately priced .
- o **Dimensions:** Width, height, and rung spacing influence the cost; larger trays for heavy-duty cables are more expensive .
- o **Supplier and Region:** Eastern European suppliers often offer competitive pricing compared to Western Europe, with B2B marketplaces listing multiple manufacturers for direct quotes .
- o **Quantity:** Bulk orders typically reduce the per-meter cost, with some suppliers offering discounts for orders over EUR500-EUR1000 .

Suppliers and Market Access

- o **Ekabel24:** Offers a wide range of cable ladders and trays compliant with DIN EN 61537, suitable for industrial and construction projects .
- o **Europages:** Lists 16 suppliers of European-style cable ladder trays, allowing direct contact for current pricing and bulk orders .
- o **Trayco:** Belgian manufacturer providing customized solutions and installation guidance, ideal for tailored projects .

Additional Considerations

- o **Installation Accessories:** Fittings, splices, and supports may add to the total cost.
- o **Delivery and Lead Time:** Prices may vary depending on shipping distance and availability.
- o **Standards Compliance:** Ensure trays meet local and international standards (e.g., DIN EN 61537) for safety and durability . For precise pricing, it is recommended to request a quote directly from suppliers, specifying material, dimensions, and quantity to get an accurate cost estimate.
