

Article Overview

Key manufacturers and suppliers of electrical distribution boxes in West Africa include Umeme Africa Engineering, Onesto Africa, George Switchboards, SPS, and PPS Products, offering a wide range of compliant and high-quality distribution solutions.

Leading Manufacturers and Suppliers

Umeme Africa Engineering supplies and distributes a variety of electrical products including top pole boxes, ready boards, split meter boxes, distribution boards, transformers, and mini-substations. They maintain agreements with manufacturers to provide both wooden and plastic cable drums, as well as re-drummed cables, catering to industrial and commercial applications across West Africa (Umeme Africa Engineering), . Onesto Africa is a veteran manufacturer with over 20 years of experience, offering modular devices for circuit protection, plastic, steel, and stainless steel waterproof enclosures, and single- and three-phase distribution boards. Their products are suitable for power distribution, industrial control, and photovoltaic systems, and they provide British, European, and American type wall switches and sockets (Onesto Africa), . George Switchboards specializes in low and medium voltage enclosures and has been serving the African electrical distribution network since 1958. They focus on providing high-quality, reliable products and services for energy distribution, making them a trusted manufacturer for both domestic and industrial applications (George Switchboards), . SPS Africa offers a range of distribution boards for domestic and industrial use, featuring circuit breakers from global brands like ABB, Terasaki, and Chint. Their solutions ensure compliance with international standards and provide dependable power distribution systems (SPS), . PPS Products manufactures electrical enclosures and distribution equipment according to SABS provisions and standards, ensuring quality and regulatory compliance for various applications (PPS Products), .

Product Options and Features

- o Single-phase and three-phase distribution boards for residential, commercial, and industrial use.
- o Waterproof and modular enclosures in plastic, steel, or stainless steel.
- o Circuit protection devices including MCBs, RCCBs, RCBOs, and SPDs.
- o Customizable solutions for photovoltaic systems and industrial control panels.
- o Compliance with international standards for safety and performance. These manufacturers provide a comprehensive range of electrical distribution solutions suitable for West African markets, ensuring both quality and regulatory compliance. They cater to diverse applications, from residential installations to large-scale industrial and renewable energy projects.
