To really know what type of circuit breaker distribution panel you have, you might want to look for a model number or a serial number inside the panel door. Look for any labels or engraved markings that indicate the manufacturer. It is like the main control center for electricity. It is usually located in a utility room, basement, garage, or occasionally outside. They are often composed. This manual provides information on the Universal Distribution Box ? [D-Box (PA0261XXXXXXX)]. The D-Box provides either an interface between Gilbarco consoles and dispensing units with Two-wire Current Loop Interface (TWI) or between Passport controller and dispensing units or CRIND s with RS-422. A distribution box, sometimes referred to as a panel board, distribution board, or breaker panel, is an essential part of electrical systems that makes it easier to distribute electricity throughout a structure.
