

Article Overview

Huijue offers fiber optic routers and components that can be customized to include multiple cables, including configurations with 10 or more connections.

Product Overview

Huijue Network Communication Equipment is a manufacturer of fiber optic routers, active connectors, optical splitters, adapters, and cables. Their products are designed for high-performance network applications, including FTTX solutions, data center networks, and digital integrated site power solutions. The company provides customized solutions, meaning a fiber optic router can be configured with 10 cables or more according to your network requirements, supporting both small-scale and large-scale deployments .

Features and Capabilities

- o Customizable Cable Connections: Huijue routers can be equipped with multiple fiber optic cables, allowing for flexible network topologies and high-capacity data transmission .
- o High-Quality Components: The routers use precision fiber optic components, ensuring low signal loss, high reliability, and compatibility with standard fiber optic networks .
- o Scalable Solutions: Suitable for data centers, enterprise networks, and FTTX deployments, with the ability to expand connections as needed .
- o OEM/ODM Services: Huijue supports custom designs and small-batch orders, so even a single router with 10 cables can be manufactured to your specifications .
- o Global Reach: Products are exported to Europe, North America, Southeast Asia, and other regions, ensuring international support and compliance .

Ordering and Support

- o Sample Availability: You can request samples before bulk orders to verify compatibility and performance .
- o Flexible Payment and Delivery: Payment terms and delivery schedules are negotiable, depending on order size and customization requirements .
- o Technical Assistance: Huijue provides guidance on network design, cable configuration, and integration with existing systems .

Conclusion

If you need a fiber optic router with 10 cables, Huijue can provide a customized solution tailored to your network needs. Their routers are suitable for high-speed, high-capacity networks, and the company offers both small and large-scale production, along with technical support for installation and configuration .
