

Is the 8-port terminal box rack-mountable

Preview

o Mounting options include 19" rack, wall-mounted, or desktop installation. o 8x fiber ports (SC/LC/ST); optional MPO/MTP module support o Size: 250 x 150 x 60 mm o Housing: ABS or aluminum alloy o Entry diameter: Ø5-10 mm; clamp and fixing slot included Compact optical network terminal box with 8 ports, designed for fiber splicing, splitting, distribution, and drop cable termination. Features ABS housing, wall/pole mountable, waterproof design, and built-in cable management for efficient FTTH deployments. This compact fiber unit is small and lightweight, making it especially suitable for mini-network terminal distribution, providing termination, fusion or mechanical. The DA8000WH On-Q Network Switch features eight Gigabit Ethernet ports for high-speed connectivity and a plug & play installation that easily attaches to On-Q Legrand plastic enclosures. Designed to fit seamlessly within these enclosures, it eliminates the hassle of mounting other branded switches. Suitable for distribution and termination of various fiber optic systems. com provides 4/8/12/24 ports. The 8 port Fiber Distribution Box is sturdy in structure, lightweight in size, and easy to install.
