

Article Overview

Popular KVM switch brands include Belkin, IOGEAR, StarTech, TRENDnet, Tripp Lite, Black Box, Raritan, D-Link, Lindy, and Linksys.

Top KVM Switch Manufacturers

Some of the leading KVM switch manufacturers as of 2026 are IEC, Dell Inc., and Raritan Americas, Inc., known for producing reliable and versatile switches suitable for both commercial and industrial applications . These companies offer a range of products from simple two-port switches to advanced multi-port and dual-monitor solutions.

Popular Consumer and Enterprise Brands

- o Belkin: Offers a wide range of consumer electronics and connectivity solutions, including KVM switches for home and office use .
- o IOGEAR: Known for innovative and dependable connection solutions for home and business environments .
- o StarTech: Provides practical KVM solutions, docking stations, and accessories for IT professionals .
- o TRENDnet, Tripp Lite, Black Box, D-Link, Lindy, Linksys: These brands offer KVM switches with varying port counts, USB support, and video resolutions suitable for both personal and professional setups .
- o Raritan: Specializes in high-end KVM switches and intelligent monitoring solutions, with over 1,000 models available .

Key Considerations When Choosing a Brand

- o Number of Ports: Ensure the switch supports the number of computers you need to control. Options range from 2-port to multi-port switches.
- o Video Resolution: Some brands support up to 4K resolution, while most handle 1080p.
- o USB and Peripheral Support: Many modern KVM switches allow sharing of USB devices, printers, and audio.
- o Dual-Monitor Support: Brands like StarTech and Raritan offer dual-monitor KVM switches for professional workflows .
- o Price and Warranty: Enterprise brands like Dell and Raritan may be more expensive but offer robust support and reliability, while consumer brands like Belkin and IOGEAR provide affordable options for home or small office use . Choosing the right KVM switch brand depends on your specific needs, including the number of computers, display requirements, and peripheral sharing capabilities. For high-performance or enterprise environments, Raritan, Dell, and Black Box are recommended, while Belkin, IOGEAR, and StarTech are excellent for home or small office setups.
