

Article Overview

New Zealand has several leading switchboard manufacturers offering custom LV switchboards, motor control centers, and industrial electrical solutions nationwide.

Key Manufacturers

Clive Wilson Switchboards Ltd Based in Invercargill, Clive Wilson specializes in industrial and commercial LV switchboards and Motor Control Centres, engineered to AS/NZS 61439 standards. They work with platforms such as Schneider Prisma, Simotrol, Quantum, and Logstrup, and provide full factory acceptance testing (FAT) for quality assurance. The company is ISO 9001 certified, Avetta registered, and SiteWise accredited, delivering projects nationwide with local service and traceability . Bremca Operating since 1972, Bremca is the largest New Zealand-owned switchboard manufacturer. They offer a full range of switchboards, switchgear, and automation solutions, providing design, engineering, manufacturing, installation, and after-sales support. Bremca emphasizes staff expertise and long-term industry experience, making them a reliable single-supplier solution for commercial and industrial projects . Switchboard Solutions Centrally located in Wellington, Switchboard Solutions is one of the largest and most trusted manufacturers in New Zealand. They design and manufacture electrical switchboards for commercial and industrial applications, with over 85 years of combined design and manufacturing experience. Their team provides professional advice, installation support, and maintenance services across the country . MGE New Zealand MGE offers tailored switchboard solutions including Motor Control Centres, Main Distribution Switchboards, and Power Factor Correction units. Formerly part of Schneider Electric's manufacturing division, MGE combines historical expertise from Merlin Gerin and Telemecanique with modern engineering capabilities. They provide on-site installation, retrofits, and maintenance services throughout New Zealand . Excel Switchgear With over 30 years of experience, Excel Switchgear designs and manufactures custom LV switchboards and mechanical assemblies. They are Prisma Partners, providing Schneider Prisma type-tested systems suitable for low-voltage distribution up to 4000A. Excel Switchgear emphasizes modular designs for easy modification and reliable delivery for commercial projects in the Wellington region and beyond .

Summary

These manufacturers provide a range of services from custom design and engineering to installation, testing, and maintenance, ensuring compliance with New Zealand standards. Depending on your project size, location, and technical requirements, companies like Clive Wilson, Bremca, Switchboard Solutions, MGE, and Excel Switchgear offer reliable solutions for industrial and commercial electrical infrastructure.
