

Article Overview

Modular cable tray prices in Oman vary depending on type, material, and load capacity, with suppliers offering customized quotes based on project requirements.

Overview of Cable Tray Types in Oman

In Oman, modular cable trays are available in several types, including:

- o Ladder Cable Trays: Prefabricated side rails connected by rungs, ideal for heavy-duty applications and maximum ventilation, commonly used in oil & gas, power, and industrial projects .
- o Perforated Cable Trays: Solid base with perforations for ventilation, suitable for medium loads and general-purpose installations .
- o Wire Mesh Cable Trays: Flexible and lightweight, often used in commercial and residential setups for easy routing and maintenance .
- o Solid Bottom Cable Trays: Provide full protection against dust and moisture, suitable for sensitive electrical installations .

Materials and Their Impact on Price

The material of the cable tray significantly affects cost:

- o Steel (GI or stainless steel): Durable and suitable for heavy-duty industrial applications .
- o Aluminum: Lightweight, corrosion-resistant, and easier to install, often slightly more expensive than GI steel .
- o FRP/GRP (Fiber Reinforced Plastic/Glass Reinforced Plastic): Ideal for corrosive environments, such as chemical plants or coastal areas .
- o PVC: Cost-effective for light-duty and indoor applications .

Factors Influencing Price

- o Load Capacity: Heavier-duty trays designed to carry more cables are more expensive.
- o Size and Length: Longer trays or custom dimensions increase cost.
- o Fittings and Accessories: Elbows, tees, reducers, and supports add to the total price .
- o Project Type: Industrial and oil & gas projects may require specialized trays with higher durability and compliance with safety standards, affecting pricing .

Suppliers in Oman

Some of the leading suppliers include:

Oman Modular Cable Tray Price

- o Albustan Technical Supplies LLC: Offers a full range of cable trays, ladders, trunking, and accessories for industrial and commercial projects .
- o Gulf Grating: Provides ladder, perforated, and solid bottom trays suitable for oil & gas, power, and industrial sectors .
- o Cable Tray Trading: Supplies various cable management products including modular trays and trunkings across Oman .
- o ATN Info and DCCIinfo directories: List multiple suppliers for comparison and direct contact for quotations .

Recommendation

Since prices vary widely based on type, material, and project requirements, it is recommended to contact suppliers directly for a detailed quotation. Most suppliers in Oman provide customized pricing based on load, length, and accessories needed for your installation.
