

Article Overview

Aluminum-galvanized cable trays typically range from \$2 to \$25 per meter, depending on material, type, size, and coating.

Typical Pricing Overview

- o **Material:** Aluminum trays are lightweight and corrosion-resistant, generally more expensive than standard galvanized steel. Galvanized steel provides durability at a lower cost. The choice of material significantly affects the price per meter .
- o **Tray Type:** Ladder trays are robust and suitable for heavy-duty applications, costing more than wire mesh or perforated trays. Solid-bottom trays offer full cable protection and are priced higher than open designs .
- o **Coating:** Hot-dip galvanized (HDG) trays are more durable outdoors but cost more upfront. Powder-coated trays provide wear resistance and color options, while pre-galvanized trays are cheaper but less durable in corrosive environments .
- o **Size and Length:** Standard lengths are often 2.4 meters per section. Larger trays increase material cost but may reduce cost per cable due to higher capacity .

Cost Factors

- o **Supplier and Location:** Prices vary by supplier margins, shipping, and regional labor costs. Russian suppliers may have different pricing due to local production and import/export factors .
- o **Installation and Labor:** Skilled labor, equipment depreciation, and installation complexity add to the total cost .
- o **Bulk Orders:** Ordering in large quantities can reduce per-meter costs significantly. Custom configurations may increase costs .

Reference Price Range

- o **Aluminum trays:** \$10-\$25 per meter depending on thickness, type, and coating .
- o **Galvanized steel trays:** \$2-\$15 per meter, with HDG options at the higher end .
- o **Wire mesh trays:** Typically cheaper, \$2-\$8 per meter, suitable for lightweight cabling .

For precise Russian market pricing, it is recommended to contact local distributors or manufacturers, as costs can vary based on import duties, local production, and currency fluctuations. Suppliers often provide PDF catalogs or online quotes for project-specific requirements .

Price List for Russian Aluminum-Galvanized Cable Trays
