

## Article Overview

Outdoor cable trays in Colombia typically range from \$6 to \$50 per meter, depending on material, design, and environmental resistance.

## Pricing by Material

- o Steel Trays: Standard steel trays cost approximately \$5 to \$25 per meter. They are durable but may require protective coatings for outdoor use to prevent corrosion .
- o Aluminum Trays: Ideal for outdoor installations due to corrosion resistance, aluminum trays range from \$6 to \$30 per meter. They are lightweight and suitable for humid or industrial environments .
- o Fiberglass Reinforced Plastic (FRP) Trays: FRP trays are highly resistant to aggressive outdoor conditions, with prices between \$10 and \$50 per meter, depending on size and design .
- o Stainless Steel Trays: The most durable and corrosion-resistant option, stainless steel trays are suitable for extreme outdoor conditions, though they are the most expensive choice .

## Design and Installation Factors

- o Tray Type: Ladder trays are more expensive but support heavy power cables, while wire mesh or perforated trays are cheaper and suitable for lighter cabling .
- o Coatings: Hot-dip galvanized (HDG) trays are recommended for outdoor use to prevent rust, costing more than pre-galvanized options .
- o Accessories: Supports, brackets, and connectors add to the total cost. Wider trays or complex layouts increase material and labor expenses .
- o Labor Costs: Skilled installation is required, and costs vary by region and project complexity .

## Market Context in Colombia

The Colombian cable tray market is influenced by infrastructure modernization and renewable energy projects, which drive demand for durable outdoor trays. Suppliers must navigate raw material price fluctuations and meet stringent safety and durability standards . Bulk orders or importing trays can reduce per-meter costs by 20-50% depending on quantity and sourcing .

## Summary

For outdoor installations in Colombia, aluminum or FRP trays are generally preferred due to corrosion resistance. Expect costs to range from \$6 to \$50 per meter, with final pricing influenced by material, tray type, coating, accessories, and installation complexity. Strategic procurement and bulk purchasing can help optimize costs while ensuring long-term durability.
