

Article Overview

The price of a thickened three-level distribution box typically ranges from \$50 to \$538 depending on material, size, customization, and order quantity.

Pricing Overview

The cost of a thickened three-level distribution box varies widely based on material construction, amperage capacity, number of circuits, and additional features such as weather resistance or smart monitoring capabilities . Standard residential or light commercial units are generally at the lower end of the range, while industrial-grade or highly customized boxes command higher prices .

Wholesale and Custom Options

For bulk or wholesale orders, prices can be significantly lower per unit, especially when ordering directly from manufacturers or suppliers in China or other export markets . Customization options, including logo embossing, packaging, busbar modifications, and transparent thickened plastic designs, may increase the cost, and minimum order quantities often apply (e.g., 1,000 pieces for some customized models), .

Factors Affecting Cost

- o Material and durability: Thickened plastic or metal enclosures with corrosion resistance or insulation enhancements cost more .
- o Number of levels and circuits: Three-level boxes with multiple circuits are more expensive than single-level units .
- o Environmental rating: Outdoor-rated or weather-resistant boxes carry premium pricing .
- o Customization: OEM branding, packaging, and specialized configurations increase the price .
- o Order volume: Larger orders reduce per-unit cost, especially for wholesale purchases .

Example Price Range

- o Small-scale or DIY units: \$50-\$150 per box .
- o Commercial-grade three-level boxes: \$200-\$400 per box .
- o Customized or industrial units: \$400-\$538 or more, depending on specifications and shipping . For precise pricing, it is recommended to contact suppliers directly to obtain quotes based on your required specifications, quantity, and delivery location . This ensures accurate cost estimates and allows negotiation for bulk or customized orders.
