

Article Overview

Trough-type cable trays are available from professional manufacturers with customizable sizes, materials, and finishes, suitable for industrial and commercial projects.

Overview

Trough-type cable trays are fully enclosed systems designed to protect sensitive cables such as computer, communication, thermocouple, and control cables. They are widely used in petrochemical, metallurgical, electric power, high-rise buildings, and school communications projects for enhanced cable safety and durability . These trays are engineered for long service life, corrosion resistance, and compliance with ISO9001 standards .

Material and Customization Options

- o Materials: Galvanized steel, stainless steel (304), aluminum alloy
- o Finishes: Powder-coated, fireproof, ventilated, or corrosion-resistant options
- o Dimensions: Customizable width, depth, and length to meet project-specific cable fill requirements
- o Accessories: Clips, straps, supports, and hardware for easy installation and maintenance

Supplier and Quotation Guidance

- o China-based manufacturers such as ACE Electric, Jiangsu Youming Group, Fujian Junsheng Electric, and Guangdong Lianbiao offer factory-direct pricing and OEM options .
- o Quotation process: Provide tray type, material, dimensions, quantity, and any special requirements (fireproofing, ventilation, or powder coating) to receive a tailored quote .
- o Delivery timelines: Typically 5-15 days for in-stock items, 15-30 days for custom orders depending on quantity .
- o Cost considerations: Volume discounts, material choice, and customization level affect pricing. Factory-direct purchases often reduce costs without compromising quality .

Procurement Tips

- o Confirm load capacity and environmental suitability for your project.
- o Ensure compliance with local electrical codes and standards.
- o Request ISO-certified products for quality assurance.
- o Consider long-term maintenance and accessibility for cable inspection and cleaning.
- o Compare multiple suppliers to balance price, quality, and delivery speed . By providing detailed specifications to a professional manufacturer, you can obtain a comprehensive quotation for trough-type cable
