

Ranking of Greek fiber optic cable testing manufacturers

Article Overview

Top Greek fiber optic cable manufacturers and testing service providers include ELECNET S.A., OSP Contractors, SeaCables, INALAN, and Fibertech, recognized for their expertise in network infrastructure and testing services.

Leading Greek Manufacturers and Service Providers

1. ELECNET S.A. ELECNET S.A. specializes in the development and maintenance of optical fiber networks, offering structured wiring systems and distribution of network elements. Their expertise in telecommunication infrastructure positions them as a key player in fiber optic installations across Greece, making them a top choice for both construction and testing of fiber networks . 2. OSP Contractors OSP Contractors provides comprehensive engineering services and turnkey solutions for fiber optic networks. Their focus on project lifecycle management ensures efficient delivery and high-quality network performance, including testing and verification of fiber optic installations . 3. SeaCables SeaCables is a manufacturer and service provider specializing in marine and industrial cables. They offer a wide range of electrical installation materials and logistics support, with a dedicated sales engineering team ensuring timely responses to technical requests. Their fiber optic solutions are integrated with automation and marine applications . 4. INALAN INALAN is a telecommunications service provider offering high-speed fiber optic Internet access for residential and business customers, with speeds up to 10Gbps. Their experience in deploying and maintaining fiber networks makes them a reliable partner for testing and performance verification . 5. Fibertech Fibertech is notable for its advanced measurement technology platforms and extensive experience in fiber optic network mapping and installation. They have completed over 2,000 km of fiber optic network surveys in the last five years, providing precise mapping and testing services, including sleeve welding, cable blowing, and connector verification .

International Testing Support

Intertek While not a Greek manufacturer, Intertek provides comprehensive fiber optic cable testing services in Greece and globally. Their services include performance testing, EMC compliance, DWDM technology testing, and verification against Bellcore, RUS, IEEE, and TIA/EIA standards. Intertek's capabilities complement local manufacturers by ensuring that fiber optic products meet international quality and performance standards .

Summary

For Greek fiber optic cable projects, ELECNET S.A., OSP Contractors, SeaCables, INALAN, and Fibertech represent the most prominent manufacturers and service providers, combining network construction expertise
