

Article Overview

For durable, corrosion-resistant, and fire-retardant cable management in Lebanon, SFSP-INTECH and Middle East Fiberglass Industries FRP cable trays are highly recommended.

Key Recommendations

1. SFSP-INTECH FRP Cable Trays (Distributed by Unitech Lebanon)

- o Designed for harsh environmental conditions including onshore and offshore facilities.
- o Suitable for industries such as oil & gas, petrochemicals, manufacturing, and mining.
- o Available with a full range of fittings, splices, covers, and support channels including cantilever and trapeze junctions.
- o Compliant with international standards for safety and durability, ensuring fire-retardant and non-conductive properties.

o Lightweight, corrosion-resistant, and low-maintenance, ideal for long-term installations in industrial and marine environments . 2. Middle East Fiberglass Industries FRP/GRP Cable Trays

- o Corrosion and chemical resistant, suitable for industrial, commercial, and outdoor applications.
- o Non-conductive and fire-retardant, enhancing electrical safety.
- o Lightweight yet strong, allowing easy handling, transport, and installation.

o Applications include power plants, substations, oil & gas facilities, chemical and water treatment plants, commercial buildings, and marine installations . 3. SFSP Lebanon Standard Cable Trays

- o Offers ladder, basket, and trunking systems with finishes like pre-galvanized, hot-dip galvanized, stainless steel, and aluminum.
- o While primarily metal, SFSP also provides FRP options under the Intech brand, ensuring compliance with BS EN, NEMA, and CENELEC standards .
- o Supports and accessories are designed for easy installation and long-term reliability.

Considerations for Selection

- o Environmental Conditions: Choose FRP trays for corrosive, marine, or chemical environments.
- o Fire Safety: Ensure trays are fire-retardant and non-conductive for electrical safety.
- o Load and Span Requirements: Verify tray strength and support options for heavy cable loads.
- o Standards Compliance: Look for compliance with BS EN 61537, ASTM, NEMA, and CENELEC EN 50173-1 for quality assurance.
- o Maintenance and Lifecycle Costs: FRP trays offer low maintenance and long service life, reducing total cost of ownership. For Lebanese projects, SFSP-INTECH and Middle East Fiberglass Industries FRP cable trays provide reliable, standards-compliant, and durable solutions suitable for industrial, commercial, and marine applications .

Recommended Lebanese FRP cable trays

SFSP Lebanon Specialized Factory for Steel Products is a leading factory in Lebanon, established in the year 2011 to serve the steel

Fiberglass cable tray basic info FRP cable trays are commonly used in industries with harsh environments,

In the intricate world of modern infrastructure and electrical systems, selecting the right cable management solution is

Our GRP cable trays provide outstanding resistance to corrosive environments, extreme temperatures, and heavy loads, ensuring

Electrical products supplier serving Lebanon and Africa. Cable trays, cable trunking, ladder trays, PVC conduits and MEP solutions.

Constructed from high-quality glass fiber reinforced polymer (GFRP), these trays offer exceptional strength and resistance to

FRP Cable Trays are non-metallic support systems for routing electrical and data cables in industrial and commercial facilities. Made

Explore the types and benefits of FRP cable trays. Learn why Chemitech Group is your go-to FRP cable tray

Ideal for Managing and Protecting Cables FRP cable tray is the support system for managing cables and protect cables from heating,

Unlike other steel or aluminium handrail, the FRP handrail offers several advantages such as corrosion resistance, long service life,

SFSP-INTECH Fiberglass Reinforced Plastic Cable Management System is designed, manufactured, and tested to be installed in

Cable Trays are designed to meet most requirements of cable and electrical wire installations and comply

Cable Tray Supplier in Lebanon Reliable Cable Tray Solutions for Commercial, Industrial & Infrastructure Projects At Kivolt, we

FRP cable trays resist acids, alkalis, salts, and other corrosive substances, providing long-term protection for cables in harsh

Recommended Lebanese FRP cable trays

Our fiberglass-reinforced plastic (FRP/GRP) cable trays are designed to provide reliable, durable, and corrosion-resistant solutions

SFSP produces a variety of products ranging from cable management systems; cable trays, cable ladders, basket trays, trunkings
