

Recommended Turkmenistan ADSSS Drop Fiber Optic Cable Manufacturers

Article Overview

For ADSS fiber optic cables in Turkmenistan, the primary local manufacturer is Dowletli, complemented by international suppliers like AFL, ZTO, Incab America, and Oufu Optoelectronics.

Local Manufacturer

Dowletli is the only fiber optic cable producer in Turkmenistan, operating since 2001. The company manufactures a wide range of optical fiber cables, including solutions suitable for aerial deployment, and offers IT products and passive telecommunications equipment. They are capable of producing cables that meet national and international standards, with fast turnaround times, making them a reliable choice for domestic projects.

International ADSS Cable Manufacturers

- o AFL - Offers AFL-ADSS(R) (All-Dielectric Self-Supporting) fiber optic cables designed for aerial transmission and distribution. Their products support up to 432 fibers, feature gel-filled or gel-free buffer tubes, and are suitable for high-voltage environments. AFL also provides a full range of installation hardware and accessories.
- o ZTO - Manufactures ADSS cables suitable for spans up to 1500 meters, using CORNING optical fibers. Their cables are available with single or double-layer HDPE sheaths, designed for overhead high-voltage transmission systems.
- o Incab America LLC - Produces a variety of fiber optic cables including ADSS, OPGW, and fire-rated cables. Their ADSS cables are designed for outdoor aerial installations and comply with U.S. standards, offering durability and performance in harsh environments.
- o Oufu Optoelectronics Co., Ltd - Specializes in ADSS and other fiber optic cables for overhead installations. Their products are designed for optimal performance and long-term reliability, with options for single or double jackets and various fiber counts.

Considerations for Selection

- o Project Requirements: Determine fiber count, span length, and environmental conditions (wind, ice, UV exposure).
- o Compliance: Ensure cables meet international standards such as ITU-T G.652D/657.A1 for single-mode fibers.
- o Installation Support: Some manufacturers provide hardware, accessories, and technical guidance for live-line or high-voltage installations.
- o Local Availability: For faster delivery and support, Dowletli is the primary local option, while international suppliers may require import logistics. By combining Dowletli for local supply and international
