

South African power fiber optic cable manufacturer

Article Overview

Key South African manufacturers of fiber optic and power cables include Dartcom Fibre Solutions, YOA Cable, M-TEC, CBI Telecom, and Cable Mack.

Leading Manufacturers

Dartcom Fibre Solutions is a South African-based manufacturer producing world-class fiber optic cables under license from OFS Fitel, LLC. They operate a facility in Waltloo, Pretoria, with an annual manufacturing capacity exceeding 12,000 km. Dartcom specializes in custom fiber coloring and ring markings, serving telecommunications and energy sectors across Africa. They are a BEE Level 2 contributor and partner with Furukawa Electric Company, ensuring compliance with global quality standards and access to cutting-edge technology. YOA Cable is recognized as Africa's largest optical fiber cable manufacturer. They focus on innovation and have developed Fast Fusion Technology (FFT) to simplify installation, reduce damage, and minimize the need for specialist equipment. YOA Cable provides a wide range of optical fiber products tailored for the African market. M-TEC, founded in 1911, is one of South Africa's largest manufacturers of fiber, copper, and power cables. Their fiber optic range includes aerial self-support cables, duct cables, direct buried cables, indoor cables, and micro duct cables. M-TEC serves markets across South Africa, Namibia, Botswana, Zambia, Ghana, Nigeria, and Mozambique. CBI Telecom is a leading manufacturer and supplier of copper and fiber optic cables, with the largest copper and fiber optic cable manufacturing plant in Africa. They provide OEM and ODM services and produce cables according to customer-specific technical requirements and international standards. Cable Mack is a major distributor and stockholder of power and fiber optic cables in Southern Africa. While primarily a distributor, they maintain extensive stock and provide nationwide delivery, supporting large infrastructure projects with both power and fiber optic solutions.

Summary

These companies collectively offer a comprehensive range of fiber optic and power cable solutions, including custom designs, high-capacity manufacturing, and distribution across Southern Africa. They are suitable for telecommunications, energy, and infrastructure projects, with many holding BEE certifications and partnerships with global technology leaders.
