

## Article Overview

India has a robust supply of steel cable trays, with multiple manufacturers offering a wide range of durable, customizable solutions for industrial, commercial, and infrastructure applications.

### Leading Manufacturers and Suppliers

- o Ajay Industrial Corporation Limited (AICL) AICL is an ISO-certified manufacturer providing high-quality steel cable trays suitable for factories, data centers, and commercial buildings. They offer perforated, ventilated, and ladder-type trays made from HR sheet, GP sheet, Galvalume, stainless steel, and aluminum. Sizes range from 25mm to 1500mm in width, 25mm to 150mm in depth, and 0.9mm to 3mm in thickness, with lengths of 2.5-3 meters, ensuring compatibility with various cable sizes and installation requirements (Ajay Industrial) .
- o Simco Steel Products Simco Steel specializes in ladder, raceway, and perforated cable trays, emphasizing durability, safety, and cost-effectiveness. Their products are designed for heavy-duty industrial use, commercial offices, and infrastructure projects, providing organized cable management, ventilation, and protection from moisture and physical damage (Simco Steel) .
- o Aditya Steel Industries Established in 2009, Aditya Steel offers powder-coated, galvanized, and perforated steel cable trays, along with earthing strips and steel fasteners. They focus on quality control at every stage, from raw material procurement to final product testing, and supply both domestic and international markets (Aditya Steel) .
- o Other Suppliers Platforms like IndiaMART and TradeIndia list numerous suppliers of metal cable trays across India, providing options for customized dimensions, load capacities (ranging from 5 kg/m to 250 kg/m), and material types. These suppliers cater to light, medium, and heavy-duty applications, ensuring flexibility for different project requirements (IndiaMART, TradeIndia) .

### Types of Steel Cable Trays Available

- o Ladder Cable Trays: Ideal for heavy-duty cables, providing excellent ventilation.
- o Perforated Cable Trays: Allow airflow to prevent overheating, suitable for power plants and industrial facilities.
- o Raceway Cable Trays: Fully enclosed for protection against moisture and physical damage.
- o Ventilated Trays: Designed for low-voltage and communication cables requiring cooling and airflow.

### Material and Specifications

- o Materials: HR sheet, GP sheet, Galvalume, stainless steel, aluminum.
- o Width: 25mm-1500mm
- o Depth: 25mm-150mm
- o Thickness: 0.9mm-3mm

# Supply of steel cable trays in India

- o Length: 2.5-3 meters
- o Load Capacity: 5 kg/m to 250 kg/m depending on design and material.

## Conclusion

India offers a diverse and reliable supply of steel cable trays, with manufacturers providing customizable, high-quality, and durable solutions for industrial, commercial, and infrastructure projects. Buyers can choose from a variety of types, materials, and load capacities, ensuring compliance with safety standards and long-term performance.
