

Switch with 4 10 Gigabit optical ports

Article Overview

Several managed switches offer 4 dedicated 10G SFP+ optical ports, suitable for high-speed uplinks and backbone connections.

Recommended Options

1. Wayos WS9328GX

- o Ports: 24 Gigabit Ethernet + 4 10G SFP+ optical ports
- o Management: Layer 3 managed, supports SNMP, CLI, SSH, WEB, and RMON
- o Features: Link aggregation, STP/RSTP/MSTP, DoS attack prevention, QoS, loop detection, remote loopback monitoring
- o Use Case: Core distribution or access layer switch for commercial networks requiring high port density and advanced security

2. TP-Link T1700X-16TS

- o Ports: 12 10GBase-T RJ45 + 4 10G SFP+ fiber slots
- o Bandwidth: Up to 320Gbps combined switching capacity
- o Management: L2 smart switch with VLAN, ACL, QoS, IPv6 support, dual firmware images for redundancy
- o Use Case: SMB networks needing cost-effective 10G migration using existing CAT5e/CAT6 cabling

3. D-Link DXS-3400 Series

- o Ports: 24-port 10G fiber with stackable design
- o Management: Layer 3, supports Standard and Enhanced software images for flexible licensing
- o Features: Hot-swappable fans and power supplies, Data Center Bridging (DCB), front-to-back airflow, switch stacking for redundancy
- o Use Case: Enterprise or data center environments requiring high availability and modular management

4. Cisco Catalyst 1000 Series (C1000-24T-4G-L)

- o Ports: 24 Gigabit Ethernet + 4 Gigabit SFP/SFP+ uplinks
- o Management: Entry-level Layer 2/Layer 3 features, PoE+ support, fanless operation for small deployments
- o Use Case: Branch offices or small enterprise networks needing reliable 10G uplinks with PoE support

5. Netgear XS724TM

- o Ports: 24x 10G/Multi-Gig + 4 dedicated 10G SFP+ ports
- o Management: L2 smart switch with remote management via NETGEAR Insight
- o Use Case: High-performance SMB or enterprise networks requiring multi-gig access and 10G uplinks

Key Considerations

- o Port Type: Ensure the switch supports the type of 10G connection you need (SFP+ fiber vs 10GBase-T copper).
- o Management Features: Layer 3 routing, VLAN, QoS, and security features are important for enterprise or

Switch with 4 10 Gigabit optical ports

data center deployments.

- o Scalability: Stackable switches or modular designs allow future expansion.

- o Power and Cooling: Consider PoE requirements and airflow design for rack deployment. These switches provide a range of options from SMB-friendly smart switches to enterprise-grade Layer 3 managed switches, all featuring 4 dedicated 10G SFP+ optical ports for high-speed uplinks.

TL-SX1008 8-Port 10G Desktop/Rackmount Switch Eight 10 Gbps Ports. 8× 10-Gigabit ports unlock the

Provides 4* 10/100/1000Base-T RJ45 ports + 1*1000Mbps uplink port and 2*1000Mbps fiber optic

Buy MikroTik CRS305-1G-4S+in Network Switch Managed Gigabit Ethernet (10/100/1000) Ethernet Power (PoE) White: Switches -

It supports dual optical SFP modules and Gigabit transmission speeds, with a 1000Base-T maximum

Product description SFP Ethernet Fiber Optic Switch, 1000m Ethernet Fiber Optic

Compact fiber optic switch 4 SFP + 2 RJ45 for network

Industrial Switch 4-Port Gigabit PoE Management + 4 Gigabit SFP Optical Ports Featuring 4*10/100/1000M IEEE 802.3 af/at PoE

The QFX5100 Series are access & top-of-rack 10/25/40/100GbE switches, optimized for application

Up to 120km : Fiber transceiver provides multiple Gigabit SFP

TP-Link 24-Port 10/100Mbps + 4-Port Gigabit Smart PoE+ Switch - 24 Ports - Manageable - 2 Layer Supported - 2 SFP Slots - 18.80

Search Newegg.com for 10 gigabit 4 port switch. Get fast shipping and top-rated customer service.
