

Article Overview

Tajikistan has both local cabinet suppliers and access to international manufacturers offering network, server, and telecom cabinets.

Local Manufacturers and Suppliers

You can find a range of cabinet manufacturers and suppliers in Tajikistan through platforms like Trademo, which provide detailed shipment data, trade volumes, and supplier contacts for networking and server cabinets. These local suppliers can help with sourcing standard or custom cabinets for IT and telecom infrastructure projects in Tajikistan, offering insights into regional availability and logistics .

International Manufacturers Serving Tajikistan

Several international companies provide high-quality network and server cabinets that can be shipped to Tajikistan:

- o Iceberg Cabinets: Specializes in telecommunication and server rack cabinets, designed for secure, climate-controlled environments. They support networking hardware, fiber infrastructure, and wireless communication components, with lead times of 3-5 days for standard stock and 4-8 weeks for large orders .
- o CABLINE (via Hubnetix): Offers high-density network cabinets, server racks, colocation racks, and wall-mount racks. Their products are modular, designed for easy installation, and suitable for data centers and telecom rooms. CABLINE also provides technical support and solutions for fiber and copper management .
- o Riteoptic: Manufactures telecom cabinets compliant with ANSI/EIA, IEC, DIN, and ETSI standards. Their cabinets include temperature control, lighting, and durable construction for outdoor or indoor installations. Riteoptic offers ODM/OEM services for custom specifications and large-volume orders with warranty coverage .
- o Legrand AV / Middle Atlantic: Provides custom racks, wall cabinets, and AV network enclosures with advanced power management, cooling, and security features. Their solutions are suitable for IT, AV, and data center applications, offering pre-configured and customizable options .

Considerations for Selection

When choosing a network cabinet manufacturer for Tajikistan, consider:

- o Standards compliance: Ensure cabinets meet ANSI, IEC, DIN, or ETSI standards for telecom and IT equipment.
- o Environmental requirements: Outdoor cabinets may need temperature control, insulation, and corrosion

resistance.

- o Modularity and accessibility: Cabinets with modular designs simplify installation and maintenance.

- o Local support and shipping: Evaluate suppliers' ability to deliver to Tajikistan and provide technical support.

By combining local suppliers with international manufacturers, businesses in Tajikistan can access a wide range of network and server cabinets suitable for telecom, data centers, and IT infrastructure projects.
