Tonga Cable System is a submarine fiber-optic cable system connecting Tonga with Fiji, where it connects to other international networks. It is 827 kilometres (514 mi) long and was activated in 2013. It has cable landing points at Sopo, a suburb of Nuku'alofa in Tonga, and Suva, Fiji. The project was funded by Asian. Tonga has formally commissioned its second international submarine cable, the Tu'i Vava'u (also referred to as the Tonga Hawaiki Cable Branch System), marking a pivotal moment for the island nation's digital resilience and connectivity. Digital infrastructure operator BW Digital confirmed the 383-km cable has.
