

Upgraded version of Slovenian optical distribution box directly from the manufacturer

Article Overview

Elba d.o.o. offers advanced, versatile optical distribution boxes directly from the manufacturer, suitable for FTTH and FTTx networks.

Manufacturer Overview

Elba d.o.o. is a leading Slovenian manufacturer specializing in electrical installations and optical network products. They emphasize ease of use, versatility, functionality, and high quality, using state-of-the-art machinery such as TRUMPF laser machines and computer-guided bending machines to ensure precise fabrication and durability. Their production capabilities allow for customized solutions, including powder coating for long-term protection and aesthetic appeal.

Product Features

Elba's optical distribution boxes are designed to meet modern network demands:

- o Versatility: Can accommodate various configurations, including splice storage, direct termination, and patching.
- o Capacity: Options for multiple fiber ports, splice trays, and connector panels, similar to the Uni box from ELPAS, which includes two connector panels and two large splice trays (KM4) for flexible fiber interconnection.
- o Compatibility: Supports PLC splitters, xWDM solutions, and different connector types depending on customer requirements.
- o Durability: Rugged construction suitable for indoor and outdoor environments, ensuring protection against dust and moisture.

Advantages of Direct Manufacturer Purchase

- o Customization: Tailor the box to specific network needs, including fiber count, splitter integration, and environmental protection.
- o Technical Support: Direct access to expert advice for installation, configuration, and maintenance.
- o Quality Assurance: Products are manufactured under strict quality control, ensuring reliable performance in harsh environments.

How to Procure

Upgraded version of Slovenian optical distribution box directly from the manufacturer

To acquire an upgraded optical distribution box directly from Elba:

- o Visit the Elba website to explore product lines and technical specifications .
- o Contact their sales or technical team for customized solutions and direct ordering.
- o Discuss specific requirements such as fiber capacity, splice tray configuration, and connector types to ensure the product meets your network needs. By sourcing directly from Elba d.o.o., you gain access to high-quality, versatile optical distribution boxes that can be tailored for FTTH, FTTx, or other fiber optic network applications, ensuring both performance and long-term reliability.

Premium-Line FTTH distribution box is aim designed for multi-purpose applications in FTTH projects. Read more here!
