

Which company should you choose for EU cable trays

Article Overview

For EU-compliant cable trays, leading manufacturers include Niedax Group, Spina Group, Ebo Systems, Eurotray, and DKC Europe, all adhering to European standards for safety and durability.

Top EU-Compliant Manufacturers

Niedax Group - Headquartered in Germany, Niedax offers over 50,000 products including cable trays, ladders, and support systems. Their solutions are designed for industrial, commercial, and infrastructure projects, with full compliance to European standards ensuring high safety and reliability . Spina Group - Based in Italy, Spina specializes in ladder and perforated cable trays. Their products meet UNI EN 61537 and NEMA VE1 standards, making them suitable for shipbuilding, industrial plants, and infrastructure projects . Ebo Systems - Known for GRP (Glass-fiber Reinforced Polyester) cable trays, Ebo Systems provides high corrosion resistance and thermal stability. Their products comply with EN and IEC standards, ideal for energy, chemical, and water treatment industries . Eurotray - A subsidiary of the Cemesan Group, Eurotray offers durable and adaptable cable trays, ladders, and wire mesh trays. Their solutions meet European and international standards, suitable for large-scale installations in power generation and industrial sectors . DKC Europe - A European leader in cable management, DKC provides a comprehensive range of cable tray systems and energy distribution solutions for civil and industrial infrastructures, ensuring full EU compliance .

Considerations for Selection

- o Compliance: Ensure the manufacturer explicitly states adherence to EU standards such as EN 61537 for cable trays.
- o Material and Environment: Choose GRP trays for corrosive or extreme environments, or galvanized/steel trays for standard industrial applications.
- o Project Scale: For large-scale installations, manufacturers like Eurotray and Niedax offer extensive product ranges and support.
- o Specialization: Ladder trays, perforated trays, and wire mesh trays serve different installation needs; select a manufacturer with expertise in your required type.
- o Environmental Declarations: Check for Environmental Product Declarations (EPDs) to ensure sustainability compliance; Niedax and Hager Group lead in EPD publications in Europe . By evaluating these factors, you can select a manufacturer that provides EU-compliant, durable, and reliable cable tray solutions tailored to your project requirements.
